

Special Quotations

Our factory can fulfill requests for unusual materials to fit special applications. Please provide information regarding the **stock required, finished size, imprint** (ink colors, coverage, and special effects), **special finishing instructions** (hem & grommet, pole pockets, etc.), and the **quantity** desired. It is also helpful to know where the finished product will be placed into use, how it will be installed, any anticipated exposure to the elements (weather, solvents, abrasives, etc.), the client's expectation of life span, and any other special needs (e.g., additional hardware needed). A sample of the desired item (if available) is also appreciated. We will return a custom quote to you within 4 to 48 hours, pending the results of our research on your behalf.

Custom Vinyl, Polyethylene, and Canvas Banners or Custom Signs

- Please complete the specifications below requesting the desired material, size, quantity, ink colors, banner color, finishing instructions, a description of the intended use, and the expected useful life.
- Be sure to include a rough sketch and the placement of any art. A sketch helps to minimize production costs.
- Process color is available in most sizes. Be sure to include the size of four color process elements.
- Overall banner/sign sizes can range from 1 ft x 1 ft to 24 ft x 4 ft.
- Minimum order quantity: 1

Fax or mail a rough sketch of your banner or sign for a quote:
